

Table of p-values for  
Hardy–Weinberg Equilibrium and  
Global Linkage Disequilibrium

	A	B	DRB1
A	1.0000	1.0000	1.0000
B	1.0000	1.0000	1.0000
DRB1	1.0000	1.0000	1.0000

The diagonal contains the p-values for the Hardy–Weinberg equilibrium test, the upper triangular matrix those for the parametric global LD test and the lower triangular matrix those for the permutation non-parametric global LD test.
